## ROOSEVELT ON ROOSEVELTISM

### Former President Defends His Political Views.

### BUSINESS MEN ARE AFRAID

But Former Chief Executive Says That Any Fear of Him or Henry L. Stimson, Republican Candidate for Governor, Was Baseless and That the Alarm Was Raised in Wall Street.

Syracuse, N. Y., Oct. 26.—The campaign grew livelier as Theodore Roosevelt traveled about Central New York state.

Hundreds stood in the rain to hear his outdoor speeches and every building in which he spoke was jammed. The colonel dwelt particularly on Rooseveltism as an issue. He told the people that some business men of the state were afraid of it. He said that any fear of him or of Henry L. Stimson, Republican candidate for governor, was baseless and that the alarm had been raised by Wall Street.

Colonel Roosevelt also replied to John A. Dix, Democratic candidate for governor, who said that the colonel had misrepresented him by saying that he had been connected with the wall paper combine. The colonel did not make the apology which Mr. Dix demanded. He insisted that Mr. Dix had not shown that he was not connected with the trust which the supreme court declared illegal.

Colonel Roosevelt spoke at Penn-yan, Canadaigua, Geneva, Waterloo, Seneca Falls and Auburn, arriving at Syracuse in time to take dinner with Francis J. Hendricks, the Republican leader of Onondaga county, who has long been identified with the Republican organization. He addressed a large crowd and spent the night at the home of Mr. Hendricks.

### Appeals to Business Men.

The speech in Syracuse was in large part an appeal to business men not to be alarmed at Rooseveltism. He began by reading the circular sent out over the names of Charles F. Murphy and the other members of the Tammany Hall campaign committee, appealing for contributions to defeat the "Roosevelt policies."

"It is a naked appeal to the power of the purse," said Colonel Roosevelt, "a naked appeal to the twin emotions of fear and greed; and a frank admission that only by a large outlay of money will it be possible to beat Mr. Stimson. This appeal from Tammany Hall is in substance precisely the appeal which has been made by the great financiers who desire to obtain or retain improper special privileges."

"There has been a deliberate effort on the part of these business men who are crooked to mislead and frighten their colleagues who are not crooked and especially to mislead and frighten the small business men by telling that disaster impends if Stimson is elected governor, because Stimson is closely allied with me, and I, forsooth, am a dangerous man, and especially dangerous to business."

"I do not think this appeal has had as much influence as I at one time feared, but still it undoubtedly has had a certain influence. A number of honest business men have been affected by the statements of those whom even if they distrust, they look up to as leaders in the business world; and in consequence some of those honest business men have shown symptoms of that species of fright which makes men especially dangerous."

### FOUND GUILTY OF FRAUD

Manufacturers of Alleged Artificial Rubber Convicted.

New York, Oct. 26.—Charles E. Ellis and Edwin R. Graves, president and vice president, respectively, of the Kornt Manufacturing company, which advertised extensively that it held a patent for making artificial rubber from the hoofs and horns of cattle, were found guilty of using the mails to defraud investors in the stock of the company, in the United States circuit court.

Judge Hand fixed Friday for pronouncing sentence on the men, and they were released in \$25,000 bail until that day. Their trial lasted three weeks.

Through advertisements in the Magazine of Mysteries and other publications controlled by Ellis, it was charged stock in the Kornt company aggregating \$371,000 was sold to investors in all parts of the country.

### Colonel Butt Very Ill.

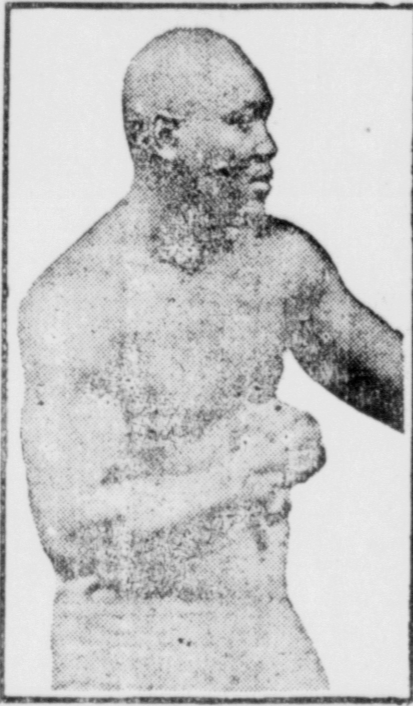

Viroqua, Wis., Oct. 26.—Colonel C. M. Butt, one of the best known attorneys of Western Wisconsin, is critically ill and physicians have given up hope for his recovery. He was once a state senator and county judge of Vernon county. A veteran of the Civil war, he was mustered out in 1866 as lieutenant colonel of the Forty-eighth regiment.

### Overby Held for Murder.

Caledonia, Minn., Oct. 26.—Christian K. Overby was arraigned before Justice A. J. Flynn for the killing of Thorne O. Hemy at Houston on Oct. 23. He waived examination and was held to answer for the charge of murder in the second degree, to appear before the district court at its next general term in Houston county.

JACK JOHNSON.

Negro Pugilist Beaten in Auto Race With Oldfield.

## OLDFIELD EASILY DEFEATS JOHNSON

### Autoist Wins Match Race With Pugilist.

New York, Oct. 26.—The ambition of Jack Johnson, champion heavyweight pugilist, to annex other honors as a racing automobile driver received a blight here at the hands of Barney Oldfield. Johnson showed to poor advantage in his new role, and Oldfield in one heat of their five-mile race at Sheepshead Bay toyed with the big fighter. Only two heats were needed to settle the question of superiority.

Following his victory Oldfield gave out this statement:

"I raced Jack Johnson for neither money nor glory, but to eliminate from my profession an invader who would have had to be reckoned with sooner or later. If Jeffries had fought Johnson five years ago, the white man would have won and after Jeffries retired he would never have had to fight him again. If I had ignored Johnson for a year or so he would probably have gained much experience on the tracks, and bought high-powered cars, while I am not getting any better from day to day. I am glad if my victory over Johnson will have any effect on the 'white man's hope' situation."

In the first heat Oldfield ran away from Johnson. He was quicker to get away and Johnson's car never showed ahead. At the finish Oldfield led by about a quarter of a mile. His time for the five miles was 4 minutes, 44 seconds.

The time of the second heat, 5:14.45, or 30.45 seconds slower than the first, tells the story of the heat.

## SUFFRAGISTS OF MINNESOTA

### Hold a Rather Lively Convention at Minneapolis.

Minneapolis, Oct. 26.—Resembling the disorder and word battles of a good, hot political convention the Minnesota suffragist convention here for the first time in its history ran up against the troubles of mere political man when an attempt was made to endorse James Gray as the gubernatorial candidate, while friends of Governor Eberhart stood steadfastly by him and the resolutions as originally presented were adopted. No action was taken in regard to endorsing either candidate for governor.

The following officers were elected: President, Miss Emily Dobbin of St. Paul; vice president, Helen Camp Thomsen of Minneapolis; recording secretary, Jean McMillan of St. Paul; treasurer, Sarah Chant of Minneapolis; first auditor, Mrs. George Kenyon of St. Paul; second auditor, Mrs. Albert Pollard of Minneapolis; member of national executive board, Mrs. Maud C. Stockwell of Minneapolis; directors, Mrs. Jenova Martin of Minneapolis, Mrs. Julia Nelson of Red Wing, Dr. Margaret Koch of Minneapolis, Mrs. L. H. Corser of Minneapolis, Mrs. Eckenbeck of St. Paul, Mrs. Boostrom of Austin, Mrs. Thiel of Staples and Mrs. H. S. Smith of Minneapolis.

### Traveled 3,370,000 Miles.

A conductor on the Great Western railroad of England recently retired after fifty years of service, and it is estimated that during that time he traveled 3,370,000 miles.

## THE CAT THAT FLEW WITH WELLMAN.

Let Tabitha and Thomas Cat, Whose home is in a Harlem flat, Meow and purr most gently at The cat that flew with Wellman.

It is an honor when a man Tries the Atlantic pond to span, But is no greater honor than The cat that flew with Wellman.

But how could Wellman hope to fly Across the ocean's billows high Without some mice to satisfy The cat that flew with Wellman?

The reason for the failure seems A lack of rats in midair streams. The ocean's vessels grant its dreams— The cat that flew with Wellman.

Wellman might gain the airy track Without the pangs of seasick's rack. But cats! 'Tis known that cats come back! That's why one flew with Wellman.

—New York Tribune.

## BALLOONISTS STILL MISSING

### Whereabouts of Hawley and Post Unknown.

### BUT SLIGHT CLUES FOUND

And These Fail to Bring Results When Investigated—Feared That the Aero-nauts Have Landed Somewhere in the Wilds of Northern Canada, Where They Are Likely to Die of Starvation.

Ottawa, Ont., Oct. 26.—The black fastness of the north still holds the secret of the lost balloonists, Alan R. Hawley and Augustus Post of New York, and their sky ship, the America II, which left St. Louis eight days ago. Various rumors have reached the bureau established here by Edmond P. Stratton, representing the Aero Club of America, but when sifted down they produced nothing that would indicate with any degree of definiteness the whereabouts of the aeronauts.

What appeared to be a promising clue developed when a dispatch from Huntsville stated that a guide, Richard Cole, and a hunting party had seen a balloon on Thursday twenty miles north of Bisco, Ont. This item of news, taken in connection with the fact that all the other balloons in the contest were known to have come to earth on Wednesday, inspired great hopes that something definite to work on had been obtained. Later in the day, however, it was learned from Dr. C. Myers of Toronto, a member of the hunting party, that the guide was mistaken in the day.

The balloon was seen on Wednesday, according to Dr. Myers, and might therefore have been either the Isle de France or the Azurea, both of which landed in that neighborhood. The idea that the party saw the America II has not been entirely given up, but the incident immediately lost most of its significance with the change in date.

### Doubt Cast Upon Story.

A second report that a balloon had been seen on Thursday in the district immediately north of Georgian bay reached here from the provincial police at Ontario. The report was sent in by Constable McCurdy of Chapeau. Some doubt also is cast upon this story. It is figured that the America on Thursday would have been either several hundred miles to the north or to the northeast of Chapeau.

Louis Spindler of the St. Louis Aero club, who has been gathering data from friends in Toronto, advised Mr. Stratton by wire that he would leave for the North to make a personal investigation of both the Cole and McCurdy stories.

A third report came from Quebec, but it is regarded as the least promising. Peter Brown, a constable of the provincial force, sent word that he had seen a balloon over Lake Kipawa on Wednesday. Both the Germania and the Dusseldorf II, passed through this territory and it is possible that it was either of them that Brown saw.

Opinion here is divided as to the possibility of reaching the men, even if they passed safely over Lake Huron and Georgian bay into the vast wilderness of Northern Ontario and Quebec or the Ungava district, still further north. Professor R. W. Book, director of the geological survey, who knows the rugged and unpeopled country like a book, is outspoken in his opinion that the aeronauts will surely perish if they sailed into the Far Northern section. There are parts of it, he said, where Indians and halfbreed hunters have gone and starved to death.

Other officials, including Sir Wilfrid Laurier, who is taking a keen interest in the search for the lost men, believe they will come out all right, especially if they landed south of the new line of the transcontinental railway.

## ORDEMANN DEFEATS CUTLER

### Minneapolis Man Now Champion Wrestler of America.

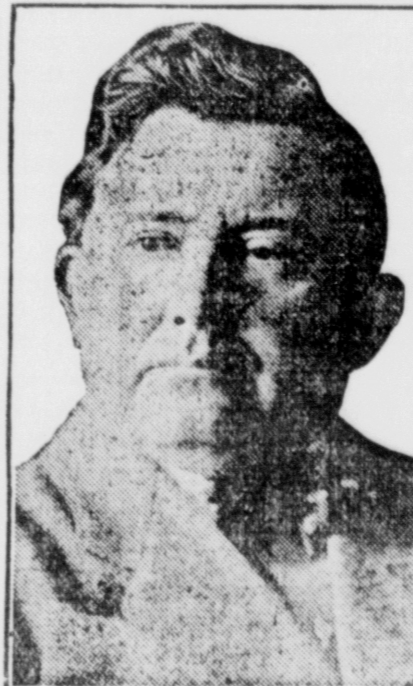

Minneapolis, Oct. 26.—By defeating "Kid" Cutler at the Minneapolis Auditorium Henry Ordemann of this city was declared heavyweight champion wrestler of America by Frank Gotch, who refereed the match and relinquished all claim to the title. It was not until a fierce struggle had taken place and Cutler had won a fall in 40 minutes and 50 seconds that the end came. Using the deadly toe hold, Ordemann won the second fall, in which Cutler sustained a double fracture of the right knee cap. The second fall, which took with it the match and title, lasted 5 minutes and 10 seconds. Doctors examined Cutler's injury, forbidding him to start the third struggle, if he held any regard for his future.

### Case Against Conway Dismissed.

Sioux Falls, S. D., Oct. 26.—The trial of the case of the United States against Thomas S. Conway came to a sudden end in the federal court in this city. Conway was indicted on the charge of abstracting money from the postoffice at Hazel. He was employed in a newspaper office in the same building as the postoffice, when the money disappeared. Judge Carland directed the jury to return a verdict of not guilty, which was done and the case against the young man dismissed.

MARTIN W. LITTLETON.

New York Lawyer Makes an Attack on Roosevelt.

## LITTLETON GETS INTO GAME

### New York Lawyer Scores Colonel Roosevelt.

New York, Oct. 26.—A new turn was given to the attack on Colonel Roosevelt and his "new nationalism" by Martin W. Littleton, Democratic candidate for congress in the Oyster Bay district, in an address at Carnegie hall at a mass meeting held under the auspices of the Democratic league.

The new nationalism, he said, has its source in the abiding disrespect Mr. Roosevelt has constantly shown toward "our form of republic" which has caused him to show dissatisfaction with the public men of this country as well as its institutions.

Citing criticisms passed upon former presidents by Colonel Roosevelt, Mr. Littleton added that apparently another executive, and that one of Mr. Roosevelt's own creation, is probably awaiting his place in "this hall of infamy." In conclusion Mr. Littleton said of Roosevelt:

"In government bound by no law; in life bound by no policy; in intercourse bound by no attachment; in debate bound by no record; in society bound by no conventions; in conduct bound by no tradition; in attack bound by no strategy; in retreat bound by no order; in ambition bound by no limit, he towers today the embodiment of conscious and unconstrained power. He is the final, conclusive and dogmatic answer to the riddles of the universe."

## JOHNSTONE BEATS DREXEL'S RECORD

### Sets a New Altitude Mark for American Aviators.

New York, Oct. 26.—The American altitude record that J. Armstrong Drexel so proudly brought down out of the clouds in his Blériot monoplane was snatched from his grasp by Ralph Johnstone in a headless Wright climber. Drexel reached 7,105 feet, but Johnstone topped him by 198 feet, with a new mark of 7,303 feet. He came down chilled to the bone and his goggles rimmed with frost. For half an hour he had battled with a snow storm above the clouds, seeking still higher levels. The undernourished Wilbur Wright danced with joy when he glanced at the barograph. "It's better than 2,000 meters," he cried, and began to prance again. He knew then that the fourth day of the international aviation meet at Belmont Park, L. I., had brought him his share of honors.

Hubert Latham, in an Antoinette monoplane, frightened the crowd when he began to do aerial flips over the edge of a nasty looking storm cloud half a mile up in the air. He righted and then shot to earth in one step, rushing sloop. The edges of a tree brushed his descent and punctured one of his wing surfaces, but he landed with only minor injuries to his machine and none to himself.

## DOOMED TO CELL FOR LIFE

### Supreme Court Decides Wisconsin Man Killed His Wife.

Madison, Wis., Oct. 26.—The state supreme court decided that Ward E. Hedger of Milwaukee must serve the sentence of life imprisonment for the murder of his wife.

Hedger was convicted of murdering his wife on Sept. 9, 1909. The case was one of the most sensational in the history of the Milwaukee courts. Later his attorneys sought a new trial on the ground of newly discovered evidence in the testimony of one Ferdinand Brautigan, who deposed that he saw suspicious characters around the Hedger home immediately after hearing the muffled sound of a revolver shot. The new trial was denied, the court intimating that Brautigan was afflicted with a lively imagination.

The home life of the Hedgers had been ideal, according to reports, and there was little motive to be found for Hedger's alleged crime.

The hobble skirt may be passing, as reported, but it is not passing many places unnoticed.

## RAILROAD RATES TO BE REDUCED

### GREAT LAKES SKY PILOT HAS 1,800 MILE PARISH.

### Gasoline Buys Is Church, and Services Are Held Annually.

A parish 1,800 miles in length and 300 miles in width is in charge of the Rev. W. H. Law, known from Buffalo to Duluth as the sky pilot of the great lakes.

The membership of this parish runs into the thousands, and the great majority of the parishioners never worship twice in the same locality, for services are held mostly in the moving ships. No wedding has ever taken place in this parish, no christening of a baby, no services for the burial of the dead.

This sky pilot seeks his parishioners in a small gasoline boat, twenty-two feet in length. Besides carrying the message of gospel to these men, he takes to them books, magazines, papers and news of the outside world. His visits are looked forward to by the lighthouse keepers and the lightship crews, for his territory is so large that he is unable to visit them more than once during the season.

Some of the lighthouses visited are far from the mainland, and the trips to them are hazardous. Standard Rock light, for instance, is nearly fifty miles out from Marquette on Lake Superior. The light is 105 feet in height and rests on crib work, which is encircled by a railway, and for weeks at a time the weather is so bad that it is dangerous for the keepers to venture out of doors. Between the light and Keweenaw point there is a depth of 1,008 feet of water.

On his travels the sky pilot visits 300 lighthouses, fifteen lightships and sixty life saving stations. Mr. Law does not outwardly resemble a minister of the gospel. He is big and healthy and has a rolling gait like a sailor. He preaches simply to the sailors, with whom he is very popular.

## STRIKING WASHWOMEN LOSE.

### Employing Matrons Organize, and Town Crier Is Busy.

The washerwomen of the small village of St. Pierre d'Oleron, in France, decided to strike and sent the town crier through the streets to proclaim that henceforth their rate was 30 cents a day with meals. The women who employed them retorted by means of the same town crier that the new rate would only be paid on condition:

First.—A day was to be from 7 a. m. to 6 p. m.

Second.—No linen was to be brought to the houses where the women were employed to be washed.

Third.—Coffee not to be included.

A tumultuous meeting of the washerwomen followed, and the town crier was sent forth once more to proclaim that the washerwomen had now raised their price to 35 cents a day.

"Those who wish to keep clean will employ us at that price; those who do not wish to be begged to do their own washing," they added.

The matrons of St. Pierre d'Oleron met, discussed the situation and decided to do their own washing rather than submit to such extortion.

Result, in a few days the town crier was again on the march throughout the streets giving out the following notice:

"Ladies, the washerwomen of St. Pierre have decided after reflection to continue day work on the old term, 20 cents a day, with meals and coffee."

## TURKS LOSE NOTED RED FEZ

### Brownish Green Astrakhan Cap Ordered For Army.

The Ottoman war office has decided to abolish the conspicuous red fez hitherto worn by officers and privates alike in the Turkish army. The substitute is an astrakhan military cap of a brownish green, the same color as the new Turkish uniforms.

It has a plain buttonlike knob in front in the case of privates, while officers have it adorned with silver or gold braid, according to rank. Officers will wear no other headgear, but the rank and file still retain a fez for use with undress uniform, and this fez is made of khaki colored felt.

## Electricity Illumines Tarsus.

Tarsus, the ancient city in Asia Minor where the Apostle Paul was born, is now illuminated by electricity. The power is taken from the Cydnus river. There are now in Tarsus 450 electric street lights and about 600 incandescent lights for private use.

## STORMS IN THE NORTHWEST

### Work Havoc in British Columbia and Alaska.

Vancouver, B. C., Oct. 26.—Destructive storms are sweeping the north coast of British Columbia and Alaska, according to advices from Prince Rupert. Strong winds are causing havoc, bridges have been swept away and telegraph and telephone lines torn down by gales and landslides. So far no loss of life has been reported.

The Kyax bridge, one of the largest on the Grand Trunk-Pacific railway, near Prince Rupert, was wrecked, and the tracks were washed out for two miles. The government telegraph line along the Skeenaw river suffered greatly.

### South African Winter.

The South African winter begins toward the end of April and lasts until September.

### Large Area in the Middle West Will Be Affected.

## ROADS GIVE UP THE FIGHT

After Combatting an Order of the Interstate Commerce Commission for Two Years They Have Decided to Make Operative the Rates Which the Commission Held to Be Reasonable.

Washington, Oct. 26.—Reduced railroad rates will become effective today in a large area of the Middle West. After fighting an order of the interstate commerce commission the railroads have decided to make operative rates which the commission held to be reasonable and which were approved recently in a decision of the supreme court.

In the now famous Missouri river rate cases complaint was made that the rates on shipments from the Atlantic seaboard to points upon the Missouri river were unreasonable, in that the portion of the rate from the seaboard to the Mississippi river was higher than rates to St. Paul. The commission found that the lower rates to St. Paul were justifiable because of water competition, but held that that part of the through rate represented by the charges from Mississippi river crossings to the Missouri were unreasonably high and fixed the rates held unreasonable. In the order issued Aug. 25, 1908, the commission stipulated that the reduced rates found to be reasonable should remain in force for two years. The railroads contested.

### Commission Changed the Date.

The commission subsequently changed the date from which the two-year period should run so that it will expire Nov. 10, 1910. After passing through the courts up to the supreme court, where the commission was sustained, the railroads have given notice that, beginning Oct. 26, the rates fixed by the commission will be charged. The new rates will be a material reduction. The rates found to be unreasonable, but which the railroads have persisted in charging the past two years, were 60 cents, 45 cents, 35 cents, 27 cents and 22 cents, respectively, a hundred pounds upon first, second, third, fourth and fifth classes from the Atlantic seaboard to Missouri river points. The new rates which will go into effect today are 51 cents, 38 cents, 30 cents, 23 cents and 19 cents, respectively, upon the different classes.

Although the order of the commission under which these rates must be charged will expire Nov. 10 it is the impression that they will be continued in force for some time in view of the recent supreme court decision.

## IN CHAMBER OF DEPUTIES

### Premier Briand Creates Something of a Sensation.

Paris, Oct. 26.—On the reassembling of the chamber of deputies after the government had been attacked by the Socialists, Premier Briand created something of a sensation by declaring that he had proof, through confessions of the leaders of the recent railroad strike, that there was a deliberate plot to ruin France by violence, anarchy and civil war.

During his address the premier said the cabinet was studying a plan to prevent a repetition of such strikes while at the same time guarding the legitimate rights of wage-earners.

The Socialist members of the chamber of deputies made a violent demonstration against M. Lepine, prefect of Paris, and the head of the police was forced to withdraw. They then denounced the ministry for the throwing of military resources of the country to the service of capital, asserting that such a procedure only increased the war among classes. The discussion went over until Thursday.

## Old Injuries Kill Pastor.

Leonard, N. D., Oct. 26.—From an injury which he received while a resident of this city over a year ago Rev. T. E. Turner died at his old home in Ireland. The injuries were sustained in an explosion of gasoline when he was attempting to save the life of his little son. This affected his health and he went to his old home in Ireland in the hope that the change would prove beneficial, but his condition gradually grew worse. He was forty-six years old.

## Fire at Garrison, N. D.

Garrison, N. D., Oct. 26.—Fire which started from an unknown source in a livery stable destroyed the stables and the coal yards of the North Star Lumber company. All the animals were rescued from the barn. There was a considerable amount of coal destroyed.

## Justice of Peace Twenty Years.

Forman, N. D., Oct. 26.—By death the term in office of Frank Andrus as justice of the peace has been brought to a close after twenty years of continuous service. Mr. Andrus was regularly re-elected every two years. He was a Minnesota pioneer, removing to Minnesota Lake in 1857 and remaining there until 1884, when he came to Forman. He pioneered in Wisconsin also, going to that state in 1848.

# ESDON ETCHINGS

Willie Chord is home from Engleale, North Dakota.

Sam Hammett is at home from Crookston for a short visit before leaving for Rush Lake, Canada.

John Hammett came home last week from Moose Jaw, Canada.

Mrs. Minnie Mead and little Nellie, spent Sunday at W. A. Blades.

W. A. Blades left Monday for Tenny, Minn., where Mrs. Edgar Mack lives.

Miss Maggie Esdon has left for Montreal, Can., for a short visit.

George Walker, of New Mexico, spent a few days with Mrs. Walker, but left for Minneapolis Monday.

Mrs. Kate Livingston who has been visiting in Esdon has returned to Crookston, Minn.

Two of Geo. Dinwiddie's children ran into a wire fence and cut their necks.

A Reliable Medicine—Not a Narcotic

Mrs. F. Marti, St. Joe, Mich., says Foley's Honey and Tar saved her little boy's life. She writes: "Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar in which I gave great faith. It cured the cough as well as the choking and gagging spells, and he got well in a short time. Foley's Honey and Tar has many times saved us much trouble and we are never without it in the house." # When Merit Wins

When the medicine you take cures your disease, tones up your system and makes you feel better, stronger and more vigorous than before. That is what Foley's Kidney Pills do for you, in all cases of backache, headache, nervousness, loss of appetite, sleeplessness and a general weakness that is caused by any disorder of the kidneys or bladder. For sale by all druggists. mwfw

# DISPATCH WANT ADS PAY.

# THE way to be sure of getting all that your clothes-money pays for—and should insure—is to buy clothes of *known* quality.

That's your big advantage here—whatever your selection may be, you have the maker's name to rely on—and our name back of that.

And keeping up our name is a mighty important particular here because we've made that name mean the best values—correct styles—satisfaction or money-back.

You want to see the brandnew models we are showing for fall and winter. They bear the well-known name of

# The House of Kuppenheimer

And there's no name in the clothing manufacture that stands higher—means more.

These new styles show the highest perfection of the maker's methods—the newest crinkles in advance style—and solid worth of fabrics that means your satisfaction from first to last.

We wouldn't wait if we were you. Choose while the stock is complete.

# DUKE OWNS TINY RAILWAY.

Four Ton Engine and One Car Sufficient For Westminster.

One of the smallest railways in the world, aside from the miniature systems in the summer parks, is a private line in England which runs from Balderton to Eaton Hall. The hall as well as the railway belongs to the Duke of Westminster.

There are two engines on the Eaton Hall railway, the largest weighing about four tons, with a tank capacity of seventy gallons.

The single passenger car is twenty feet long and has a seating capacity of sixteen passengers. There are a number of freight cars used in hauling coal and other supplies. The little trains make regular runs, connecting with the trains on the Great Western railway.

England Eats Chinese Hogs.

London now gets large supplies of bacon and other hog products from China, an American firm having organized this business on a large scale north of Shanghai. The hogs are fattened in the rice fields.

Why He Fired Him.

"He wouldn't do for me," this man was heard to say in the comparative hush as the train slowed down for a station in the subway. "I tried all I could, nursed him along and was good to him, but he wouldn't work, and I had to let him go. Why, he was too lazy to laugh, and when a man gets as lazy as that, why, there's nothing"—But the rest was lost in the rumble of the train.—New York Sun.

GENERAL OUTFITTERS, UNDERTAKERS and EMBALMERS, PLUMBERS and STEAM FITTERS

TER THE FIRE  
AT BAUDETTE

Hurley Visits the Fire Stricken Cities of Spooner and Baudette

UND BURNED IN PLACES

of Canadian Visitors Without Passes Set to Work by Soldiers

John Hurley, who is traveling in northern Canada has written his sister, Mrs. J. F. Russell, of 402 South Main street a letter wherein he describes conditions in Baudette and Spooner after the great fire. Under date of October 18th he says:

These two towns were certainly burned out in good shape, reminding one of the old saying, "Fire is a good friend and a bad master." It played some funny pranks, such as burning brick buildings while the frame outhouses right by the side of them did not get scorched. In other places it would burn everything even into the ground and still not touching a log shack ten feet away.

There are some people in bad luck. Some are housed in tents, others in a cold, drizzling rain. Of course, some funny things happen. For instance, last day a lot of people from the Canadian side went over to view the ruins and did not get their passes as Adjutant General Wood. As the law had been declared many were set to work by the soldiers. Some of the visitors had their Sunday clothes on and they say it was common to see people with white shirts on digging in the ditches and turning over the soil and all such things. About 35 or 40 bodies have been found so far. Some ruins which are burning have not been examined. There is one thing lacking and that is style. Here you find the business men, council men, mayor and laborers all living in tents. They were pitched on the school grounds by the soldiers. Some of the stores and a few storekeepers are living in a wangan on the river.

I was in Warroad the night of the fire and was supposed to come, but the blaze looked too hot for me and I turned back. For three or four days smoke hung over this vicinity and at Rainy River, Ontario that you could not see across the street.

RS. SULLIVAN PASSES AWAY

Wife of W. J. Sullivan Follows the Little Baby Which Died Last Week

Mrs. William J. Sullivan aged 30 years died this morning of diphtheria. She had been sick for some time at a local hospital and was supposed to be growing better, when sudden relapse occurred at eleven o'clock this morning and she passed away.

She leaves surviving her husband and three children, Carl aged nine, John aged six and Clarence aged five. The husband is prostrated with grief for it was only a week ago that their little baby died. The family resides at 611 North Tenth street.

The deceased was a member of the B. A. The funeral will be held at half past two o'clock on Friday afternoon from the First Methodist church, the Rev. Charles Fox Davis officiating.

MUSIC AND DRAMA

The Dougherty Stock Co.

The Dougherty Stock Co. appeared "Faust" last night at the Brainerd opera house and the play was well staged and presented. James Dougherty, as Mephisto, played his part admirably. Act four, featuring the Broken and the mages revel, drew the hearty applause of the large audience. The scene at the conclusion was a beautiful piece of stage craft. The company is well balanced and as a stock company the Dougherty's excel in any which have appeared in Brainerd. Their singing is good. They deserve good houses for they are presenting excellent plays. The list of prices is within reach of all.

The Gratitude of Elderly People

Goes out to whatever helps give ease, comfort and strength. Foley's Kidney Pills cure kidney and bladder diseases promptly, and give comfort and relief to elderly people. For sale by all druggists.

RELEASES OPTIONS

Several Options on October 24th Released to Lands in 3-46-29

On October 24th there were filed releases of options with Register of Deeds A. G. Trommald covering lands in lot 7, the southeast quarter of the southwest quarter and the north half of the southeast quarter of section three, township forty-six, range twenty-nine, of Crow Wing county.

The operators, John Kieffman, C. J. Baldwin, Albert Baldwin, H. A. Pancer, Martin Hughes, Jacob Kitz, John Connors, John A. Redfern, J. R. Young, E. C. Kieffman and Peter McFarley filed their release of option and the land reverted to John Hopkins.

HAIEN SHIP  
LOST AT SEA

Special to The Dispatch:—

Port Au Prince, Hayti, Oct. 26.—The Haiten gunboat Liberte, has been lost at sea off Port Depaix, following an explosion on board. It is estimated that 70 persons were either killed or drowned. Twenty others were rescued. The Liberte sailed on Monday last having on board ninety persons. So far as known only twenty escaped. Among those lost were ten Haiten generals who were going to take command of several divisions of troops in the department of the North.

SHOOT CHICKENS FROM AUTO

G. A. Oberg and C. W. Oberg Shoot Prairie Chickens on Their Way From Deerwood to City

G. A. Oberg and C. W. Oberg, while motoring from their home in Deerwood to Brainerd met a covey of prairie chickens. The sight of the big automobile appeared to paralyze the birds. They sniffed the gasoline, flew from the roadway, settled in a nearby tree and a couple of shots from the auto brought down three.

Two other trips were made to Brainerd and on each occasion the automobile hunters bagged chickens. This certainly beats shooting ducks from the wet seat of a leaky duck boat.

ORDERS BIG GLASS

A Brainerd Lady Calls Up Hardware Store and Gets West's Restaurant

A humorous incident happened the other day to a lady who called up a hardware store, wishing to order a window pane 24 by 34. Instead of getting Clark's telephone number the lady glanced hurriedly through the telephone book and got a wrong number and was given West's restaurant. The following interesting conversation took place:

Lady—"Have you got a large sized glass?" West, who was rather mystified when asked to solve such a question, answered—"Why yes, we have some large glasses."

Lady—"Well, I want one about 24 by 34 in size."

West—"We have steins, schooners, ponies and big ones, but I haven't got a glass in the place as big as that. Why, there isn't a saloon on earth carries a glass as big as what you want. You better buy a bath tub."

Lady—"Isn't this a hardware store?"

West—"Great Caesar, No, No. This is a restaurant and saloon."

And then the lady slammed down the receiver and got real mad.

SENDS OUT NOTICES

Secretary Nelson Urges all to Pay Water and Light Rentals Now Due Before Nov. 1st

Secretary of the Water and Light board William Nelson, is sending out notices to all people showing balances due on water and light used and asking them to settle up before November first, so as to avoid placing the same in the hands of the auditor for collection.

Said Mr. Nelson: "The consumers have invariably been prompt in their payments and I doubt whether I shall have much of a list to turn in to Auditor Smart."

The law under which Secretary Nelson operates is found in section 133 of our city charter and reads:

All water rentals and electric light and power rentals, together with meter rentals which are not paid as due, are hereby made a charge against and lien upon the real estate for the use of which, and the occupants of which water and electricity is furnished; and it is made the duty of the secretary of the water and light board, on or before the first day of November of each year to furnish to and file with the auditor of Crow Wing county, an itemized statement showing the amounts of such delinquencies and the property to be charged, and it shall be the duty of the county auditor to extend the same upon the tax roll of the property as a tax and a charge against the property, and the same shall be collected by the county treasurer as other taxes and paid to the city treasurer and by him turned into the water and light fund.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHEVREY & CO., Toledo, O.

GIVES INTERESTING LECTURES

Director A. R. Bakey Delivers Stereopticon Lecture and Shows New Pictures

The anti-tuberculosis exhibit of the state board of health had its second day's session at Gardner's hall yesterday afternoon and evening. Over 400 citizens were present at the evening lectures.

Mrs. C. M. Patek, who is a director of the sixth district of the state organization for the prevention and relief of tuberculosis spoke interestingly about what the Women's clubs of the state and their committees are doing for the amelioration of existing conditions. She also referred to the subject of visiting nurses and proper sanitation of homes.

Mrs. Perry Starkweather, of Minneapolis, the deputy labor commissioner of this state, spoke to the mothers and their families and paid particular attention to the home treatment of this disease. Her principal point made was to get a school census in order to see if every child of school age was in school and thereby gain the state aid for a tax to support the institution of visiting nurses. She is a woman of wide experience as her office of deputy labor commissioner brings her into contact with the conditions surrounding the workers of large cities in their home and factory life.

Dr. Ide, of the Northern Pacific sanitarium, delivered an instructive address on the importance of early diagnosis so as to check the disease in its first stages.

Miss Hooper's songs were listened to with pleasure by the large audience assembled.

Dr. J. L. Camp, the father of the State Sanatorium at Walker, a member of the state advisory board of directors of this sanatorium, told how consumption originated, detailing different phases of the disease and the best modes of treatment. The next step in the state's treatment of the disease would be taken when Dr. Camp's long cherished plan of building a hospital for the treatment of advanced cases was favorably acted on by the proper authorities. The state sanatorium treats only incipient cases which are curable. The addition hospital will take care of the more advanced cases which are now denied admission at Walker.

Mr. A. R. Blakey, director of the exhibition, in his illustrated lecture on the first afternoon dwelt largely on the methods of spread of tuberculosis, prevention and cure, especially pointing out to the students in the schools important sources of infection.

The public drinking cup is very dangerous. Persons leave germs in the mugs on the rim of the cup and then other persons take them off. We should have the sanitary drinking fountains or individual drinking cups. Putting the pencil point in the mouth and turning the pages of a book with moistened fingers is apt to spread diseases.

Even though we do take in disease germs many of them will be destroyed by the body if we keep it in a strong and healthful condition. So we should avoid as many avenues of infection as possible, on the one hand, and should keep our bodies in the best possible condition so as to destroy such germs as may gain entrance. The body is kept in good condition by breathing fresh air twenty-four hours out of every twenty-four, eating wholesome food and taking plenty of exercise out of doors. Also by avoiding excesses of any sort especially interperence.

In a later illustrated lecture Mr. A. R. Blakey spoke on the social aspect of tuberculosis. Tuberculosis is a special and medical disease. Medical men are taking the lead in the campaign against tuberculosis but the issue of the campaign lies largely with the rank and file. "To combat tuberculosis successfully requires the combined action of a wise government, well trained physicians and intelligent people."

And tuberculosis is a social problem. It is a serious unnecessary drain upon the resources of the state. The financial loss occasioned by this disease alone is conservatively estimated at \$12,000,000 annually. Why not spend a few more thousands

Keep that baby warm of nights

Ask to see our Dr. Denton's and the fleeced pajamas for Children

They will do it at a very small cost

"MICHAEL'S"

"MICHAEL'S"

as an investment to save these millions.

Charts were displayed, showing that the death-rate from tuberculosis has declined markedly in other state and other countries while in Minnesota the death-rate is practically stationary. And this in spite of the fact that Minnesota has one of the most healthful climates.

One explanation for this deplorable situation lies in the fact that we have paid more attention to the health of the animals and plants than to the health of human beings.

Much can be done through legislation. One chart showed a marked decline in the death-rate of children in the district of Columbia after the passage of a law demanding pure milk. We need legislation looking toward the establishment and medical inspection in schools. Many more or less slight defects might thus be remedied which if neglected are sure to lead to serious results; such defects are paving the way for tuberculosis and other diseases.

Furthermore, we need legislation which will secure the registration of every person suffering from tuberculosis. These cases should be supervised but in order to do this the board of health must know where each individual case is living. Since Minnesota's death-rate is stationary every consumptive who dies gives the disease to someone else. This can and should be stopped.

Tuberculosis is much more prevalent among the poorly paid workers than among the well to do. The farmers are living under more unhealthful conditions, such as overcrowding, poor food, etc. So one phase of the tuberculosis problem is to give such workers an opportunity of earning a decent livelihood.

In view of the fact that Minnesota is suffering enormous, and yet unnecessary losses from tuberculosis and that no lesser authority than President Roosevelt has said that our national health is physically our national asset, ought not measures be taken to stop this drain upon the resources of the people? At this time, when "All eyes are on Brainerd," why not make a start by securing the services of a visiting nurse?

Safe Medicine for Children

Foley's Honey and Tar is a safe and effective medicine for children as it does not contain opiates or harmful drugs. Get only the genuine Foley's Honey and Tar in the yellow package. For sale by all druggists. mfw

CROSS LAKE NEWS

Ben Moon moved from Pillager to Watertown last week.

Fred F. Johnson has corn that will average 29 bushels to the acre.

This is a good time to husk your corn. Of course you have dug your beans, pulled your potatoes and finished other little fall jobs.

The road work under the overseers is done, and now the town clerk is wrestling with the delinquent tax list.

Frank Gordon and Harry Gould went out to Baker's Sunday on a kind of a horse deal, and returned Tuesday.

C. W. Hendrickson went to Brainerd Monday, returning Wednesday. Wm. Wall had a telegram from St. Paul telling of the death of his sister in an automobile accident. He went to St. Paul Friday.

C. W. Hendrickson and Frank Gordon went hunting Sunday.

Mrs. Anna Frost and Mrs. Irma Camp Hartley, who is running independent for superintendent of schools, were up through Watertown the first of the week getting acquainted with the voters.

Miss Belle McKay accompanied Mrs. G. A. Williams on her return to her home in Minneapolis Wednesday. Miss McKay will remain there some time.

Fitz Seekel has just completed a barn and Saturday gave a dance to the citizens who indulged in that kind of exercise. Those who attended report a jolly good time with a boat ride thrown in.

Fritz Seekel has posted notices for a cartway. He has no way of getting out among us without traveling over other people's land. Should the owners call a halt, Fritz would have to go by boat or stay at home.

Cheaper Than Wood or Coal

Call and investigate the new Diploma Oil Burner. Burns crude oil and water in cook stoves, ranges and heating stoves, steam boilers and hot air furnaces. Demonstrated in rear of Rex hotel, 5th street.

ISSUES MANY LICENSES

County Auditor Smart is Kept Busy Making Out Game Licenses

Since the last date of publication County Auditor Smart has issued game licenses to W. H. Gemmell, George H. Warner, C. L. Burnett, John Mann, Z. H. Einfeldt, G. A. Schumacher, R. C. Ellis, Wm. Olmsted, F. E. Stout, Chas. Golla, Wm. Ebinger, J. R. Smith, J. H. Rounds, and Oscar Hill, of Brainerd; George Wilmot, of Jenkins; Andrew Tyberg, Otto Pelta and R. W. Wedgewood, of Cuyuna; J. H. Miller, of Deerwood; E. Fletcheher and Phillip Buchite of Emily; J. B. Haskell, of Crosby.

This makes 163 licenses issued to date. The total list may run to 400. There will be lots of smoke in the air when the Crow Wing county contingent commences its bombardment of deer November 10th and closing on November 30th.

WORST COLD BREAKS EASILY

In Just a Few Hours all Misery From a Bad Cold or the Grippe Will be Overcome

Nothing else that you can take will break your cold or end gripe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, stiffness, rheumatism pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or gripe.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end gripe misery as promptly and without any other assistance or bad after-effects as a 25 cent package of Pape's Cold Compound, which any druggist in the world can supply.

A Trick With an Egg.

Place two V shaped wineglasses of the same size near the edge of a table. In the right hand one put an egg, just fitting the rim of the glass. Hold the bases of the glasses firmly down, the top rims touching each other. Now, with a quick, sharp breath blow upon the line where the egg and the glass meet. The egg will jump to the other glass. With a little practice this can be done every time. Be careful to blow in a line with the left hand glass, or the egg will jump in the wrong direction and land on the table with disastrous results.

Mrs. Jacob Wilmert, Lincoln, Ill., found her way back to perfect health. She writes: "I suffered with kidney trouble and backache and my appetite was very poor at times. A few weeks ago I got Foley's Kidney Pills and gave them a fair trial. They gave me great relief, so continued till now I am again in perfect health." For sale by all druggists. mfw

NO REASON FOR IT

When Brainerd Citizens Show the Certain Way Out

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of diabetes of any kidney ills when relief is so near at hand and the most positive proof given that they can be cured. Read what a Brainerd citizen says:

Mrs. Carolina Sundberg, 1504 E. Pine St. S. E., Brainerd, Minn., says: "Doan's Kidney Pills have earned my highest endorsement. I suffered for several years from backache and the kidney secretions were unnatural. I was annoyed by dizzy spells after standing for awhile, and at times my feet became swollen and painful. The doctors I consulted said I was suffering from kidney trouble, but their medicines failed to help me. Finally I was told about Doan's Kidney Pills and I procured a box from a local drug store. Since using this remedy, I have been troubled but little by pain in my back and my feet have not swelled. If my experience will help other kidney sufferers I give this statement gladly."

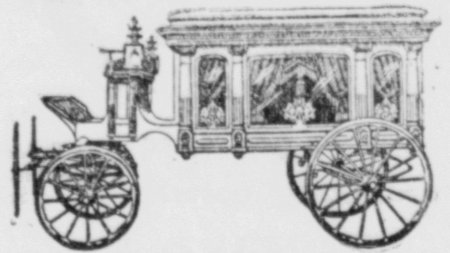

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Burials in Coffins.  
Burial in coffins in England was not usual until about 1700 or even later. When the right to naked burial was not denied, it was questioned whether our forefathers could insist upon the privilege of being incased in "a big box, perhaps imperishable" and so laid in the earth. At Farnham about 1880 only fourteen out of fifty-five persons buried were buried in coffins.  
—Manchester Chronicle.

**Formation of New Elements.**  
Uranium appears to have a decadent life history, breaking down into other elements, of which radium is one, which in turn yield the emanation and other elements designated as radium A, B, etc. The theory has been propounded that uranium, thorium and radium are undergoing atomic disintegration and the heat that radium evolves is the direct outcome of explosions of the atomic structure. Elements of lower atomic weight result, and hence the appearance of helium. This would account for the presence of helium in the rocks and spring waters of the globe, where it has been accumulating for millions of years. — Dr. Charles Avery Doremus in Century.

**A Small Detective.**  
The man was nearly through taking down the awnings when the bell rang for luncheon. Little Mrs. Day looked at all her trinkets and fingered about the room on one pretense and another until her small boy, looking up with that unguine insight so disconcerting to his elders, observed in his piercing treble: "You go right along, mamma. I'll watch him." — Woman's Home Companion

## The Famous Rayo

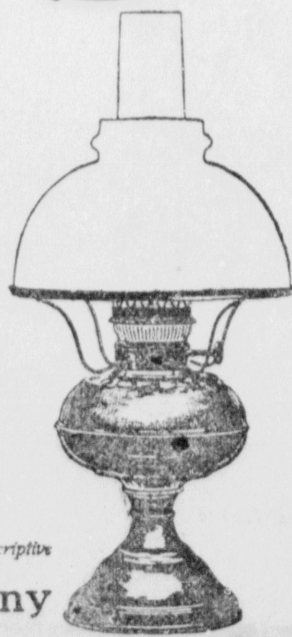

*Is the Lamp of Real Beauty*

because it gives the best light of all lamps. The Rayo gives a white, soft, mellow, diffused light—easy on the eye because it cannot flicker. You can use your eyes as long as you wish under the Rayo light without strain.

The Rayo Lamp is low-priced, and even though you pay \$5, \$10 or \$20 for other lamps, you may get more expensive decorations but you cannot get a better light than the low-priced Rayo gives. A strong, durable shade-holder holds the shade on firm and true. This season's new burner adds strength and appearance.

**YOUR SUPPORT IS SOLICITED**

### A CARD TO VOTERS

I am a candidate for county attorney, and respectfully ask your support at the polls. I have lived in Brainerd almost 28 years, and, during that time have held several public offices. If my record, either as a citizen or as a public officer, is such that you cannot support me, it is, of course, your privilege to vote against me. If, on the other hand, I have performed my duty as a citizen and as a public officer, I hope to receive your support. I know that I have always tried to do right, and, if elected, I shall continue to try to do right. I believe I understand the duties of county attorney and the growing needs of the county. I shall be guided by these in the performance of the duties of the office, if elected.

Yours Truly,  
W. A. FLEMING.

**JOHN SCHMOLKE**

Democratic Candidate for  
**Representative 48th District**  
Morrison and Crow Wing Counties  
Resident of Buckman, Morrison county, 27 years, as farmer, merchant and real estate dealer.

Incorporator of the village six years ago, and since its president.

One of Morrison county's heaviest tax payers.

Always a booster for Morrison county, and have expended hundreds of dollars each year in advertising this county and Northern Minnesota.

Have located newcomers on 50,000 acres of Morrison county lands. Favor Good Roads, Reapportionment, Initiative Referendum and Recall, Popular Vote on U. S. Senators, Primaries extended to the State Officers.

## BATTLE HYMN BY VIEW OF SKIRMISH

**N**INETY-ONE years, all full of increasing happiness and honor, until on her ninetieth birthday she was able to say, "The deeper I drink of the cup of life the sweeter it grows," was the portion of Julia Ward Howe, best known as author of the "Battle Hymn of the Republic," who died recently at her summer home at Portsmouth, R. I.

This happiness came from nearly that many years of service in behalf of the progress of mankind, whether she sought that end through the advancement of general reform or through the advocacy of a special cause, such as woman suffrage, in which she saw the good of all, and, more, her contentment was complete in a happy family life, which she put first of all.

### World Paid Homage.

One of the most remarkable tributes ever paid to a woman was when upon the occasion of the grand reception to the foreign representatives attending the Hudson-Fulton celebration at New York in 1909 an audience of thousands of noted persons from more than a score of countries rose as Mrs. Howe stepped forward on the platform to read her poem in honor of Robert Fulton and greeted her with a thunder of applause greater than that given to any one else.

In spite of her years she had not retired from active life, and she was even then president of several important organizations, including the New England Woman's club, of which she had been the founder in 1877. She had kept alive her interest in the welfare of all people and with it their

MRS. JULIA WARD HOWE.

affection, so that it was truthfully said when Brown university conferred the degree of doctor of letters upon her in 1909:

"Julia Ward Howe, Boston, Mass., author, philanthropist, mother, friend of the slave, the prisoner and all who suffer, singer of the battle hymn of freedom, allied with Brown university through her distinguished husband, allied with all educators through her faith that it is the last life for which the first was made."

### Skirmish Inspired Hymn.

Though celebrated in many ways, Mrs. Howe's chief fame—and pride, too—was the "Battle Hymn of the Republic," the origin of which she told as follows:

"Late in November, 1861, myself and a number of friends, including Governor Andrew, the Rev. James Freeman Clarke, my pastor, and my husband, Dr. Howe, went from Boston to Washington to see what we could do of the war. One day we went out into Virginia to see a review of a number of the troops, and the maneuvers were interrupted by a surprise by the enemy

### The Double Ball.

Shuang chi'er, although the name may sound like a disease, is not a form of writer's cramp. On the contrary, "their" purpose is to prevent it. The words mean "the double balls," and shuang chi'er are two iron balls an inch or so in diameter, which nestle in the right hand of every Chinese man of letters for hours each day, one being revolved about the other until they are worn bright. They are just large enough to make a handful, and the action of shifting one about the other brings the fingers into play and lends them that suppleness and digital dexterity which are necessary in the manipulation of the Chinese lettering pen or fine pointed brush. Of what a simplicity!

### FOR BALD HEADS.

**A Treatment That Costs Nothing if It Fails.**

We want you to try three large bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c. and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store.

—Johnson's Pharmacy

### BATTLE HYMN OF THE REPUBLIC.

Mine eyes have seen the glory of the coming of the Lord.  
He is trampling out the vintage where the grapes of wrath are stored.  
He has loosed the fateful lightning of his terrible swift sword.  
His truth is marching on.

Glory, glory, hallelujah!  
Glory, glory, hallelujah!  
Glory, glory, hallelujah!  
Our God is marching on.

I have seen him in the watch fires of a hundred circling camps.  
They have built him an altar in the evening dews and damps.  
I can read his righteous sentence by the dim and flaring lamps.  
His day is marching on.

I have read a fiery gospel, writ in rows of burnished steel,  
"As ye deal with my contemners so with you my grace shall deal.  
Let the hero, born of woman, crush the serpent with his heel,  
Since God is marching on."

He has sounded forth the trumpet that shall never call retreat.  
He is sifting out the hearts of men before his judgment seat.  
Oh, be swift, my soul, to answer him—be jubilant, my feet!  
Our God is marching on.

In the beauty of the lilies Christ was born across the sea,  
With a glory in his bosom that transfigures you and me,  
As he died to make men holy, let us die to make men free  
While God is marching on.

In which a small body of Federal soldiers were surrounded, but afterward rescued.

"We had to drive home very slowly, the road being filled with soldiers marching back to their quarters. To beguile the time we began to sing various patriotic songs, among others old 'John Brown's Body.' Mr. Clarke said to me, 'Mrs. Howe, why don't you write new words to that good air?' I replied that I had often wished to do this.

"I went to bed as usual that night and woke in the gray of the early dawn, when the lines of the 'Battle Hymn' suggested themselves to me. I composed all the verses lying quietly in bed, and then, fearful that I should forget them, I sprang from the bed, found pen and ink and scrawled them almost without seeing what I was doing. Having accomplished my idea, I went back to bed again and fell asleep.

### Popularity Was Slow.

"A day or two later I repeated my verses to Mr. Clarke, and he was much pleased with them. When I returned to Boston I carried them to James T. Fields, at that time editor of the Atlantic Monthly. The title, the 'Battle Hymn of the Republic,' was suggested by him. The poem was published soon afterward in the magazine and did not at first receive any special mention. We were all too much absorbed in watching the progress of the war to give much heed to a copy of verses more or less.

"I think it may have been a year later that my lines in some shape found their way into a southern prison in which a number of Federal prisoners were confined. An army chaplain who had been imprisoned with them came to Washington soon after his release and in a speech or lecture of some sort described the singing of the hymn by himself and his companions in that dismal place of confinement. People then began to ask who had written the hymn, and the author's name was easily established by reference to the magazine.

"The 'Battle Hymn' was often sung during the course of the war and under a great variety of circumstances. Among other anecdotes I have heard of its having once led a forlorn hope through a desperate encounter to a successful issue."

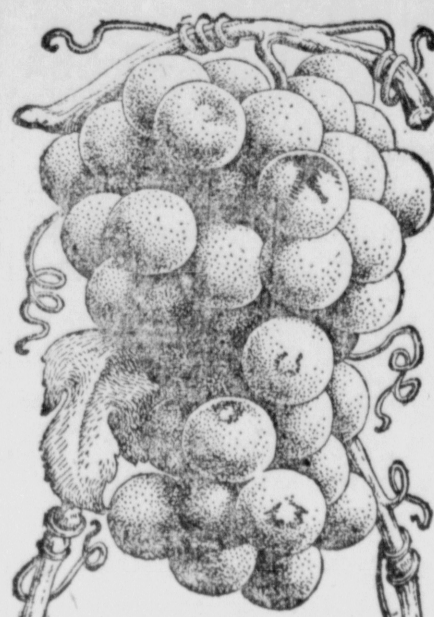

### Improve the Aeroplane Engine.

Though Aviator Ely gave up the fight—or the flight—after consuming three days in making twenty-one miles on the air voyage from Chicago to New York, the probability seems to be that some bird man with a machine fitly groomed for the purpose will be able to accomplish such an aerial journey soon. Ely's engine was not working right, and for some reason it appears that his mechanics could not make it work right after three periods of tinkering with it and its accessories. Even longer distances by aeroplane are now "in the air," so to speak. An automobile is speeding westward from New York to San Francisco, marking out a route for a cross continent flight. Chavez flew across the Alps, though the achievement cost him his life.

The failure of Ely should serve to set aeroplane makers at work in the effort to achieve a motor that will move and not get out of commission upon the slightest provocation. Thomas A. Edison, who has invented some things himself, is quoted as saying recently that he knows of no device that has made more rapid progress than the aeroplane, and he declares his firm belief to be that within ten years the mails will be carried by aeroplane. Only a year ago a long distance flight by aeroplane was something unknown in America. Now we have had the Curtiss flight from Albany to New York, the Hamilton round trip between New York and Philadelphia, the Brooks voyage from Chicago to Springfield and the Hoxsey flight from Springfield to St. Louis. Next!

### The Harvest Moon.

The "harvest moon" is the full moon which falls nearest to the autumnal equinox.

### Don't Wait.

A paper devoted to country life remarks that "spring is the best time of the year to move bees."

It may be. But if a bee settles on your neck or any other portion of your anatomy in the fall don't wait until the spring to move it. There is a good reason why you shouldn't, and you will discover what that reason is soon after the bee alights.

**MRS. M. HARRIS  
BAKED IN OVEN**

MRS. M. HARRIS.

Mrs. Harris says: "I wish to testify to the efficiency of Loughney & Loughney bake ovens. They baked me and completely cured me of my rheumatism. Those who have rheumatism and know the racking pain will realize how pleased I am to feel well and free from pain again. I would not believe such quick results could be obtained had I not underwent the treatment myself. The Loughney bake oven is a wonderful invention, and it is amusing to watch patients come out of the oven after their first bake, who could not walk or had no use of a limb, and see the surprised and pleased expression on their faces when they have full use of their limb and find the pain gone."

"Loughney & Loughney occupy all the offices on the third floor of the Christie building on Fourth avenue west between First and Second streets, Duluth, Minn."

"They do not charge for consultation, and they told me what my trouble was to a letter. I did not have to tell them. My address is 1606 Minnesota avenue, Telephone, Melrose, 1127, Duluth, Minn."

Sincerely,  
Mabel Harris
